

VM-553

Visage series

by **rbh** Sound

Stainless Steel Grille
White or Black

PREMIUM ARCHITECTURAL EXPANDED VERTICAL COVERAGE

Borderless, Magnetic Frame

Damped Aluminum Driver

Swivel Aluminum Tweeter

Paintable S-Steel Grille
Black available

You customize the VM-553 for what you need, either expanded vertical coverage, or a dedicated LCR with only two speakers.

The top three drivers in each speaker can act as Left & Right channels, while the bottom mid/tweeter combo of both channels transform into a dedicated center.

VM-553

Features three 5¼-inch aluminum cone woofers and dual 1-inch aluminum dome tweeters for pristine sound and outstanding performance. Developed for high-end home theaters or multi-channel media rooms, the VM-553 has the unique ability to perform double-duty as both a center channel speaker and as a main front left or right speaker in a surround sound system. The lower woofer and tweeter can be configured to perform the duty of the center channel, thereby eliminating the need for a separate dedicated center channel!

VISAGE VM-SERIES In-wall In-ceiling Architectural

- Aluminum dome, swivel tweeters with 30° articulation for excellent room-filling dispersion

- Acoustic lensed dispersion of high frequency energy, improves off-axis response of dome tweeters

- Aluminum cone mid-woofers provide smoother, more detailed response

- Mylar capacitors minimize distortion, producing uncolored high frequency

- Self resetting protection device integrated into crossover ensures safe speaker operation

- Edge-to-edge, paintable stainless-steel magnetic grilles
